

BITUFELT

Produced by the Modern Waterproofing Company, Bitumode is a line of polymer-modified bitumen waterproofing membrane of the highest quality. Bitumode is modified by APP & APAO, this guaranteeing superior performance under various conditions.

BITUFELT is reinforced with non-woven polyester (P) which provides highly mechanical properties.

USES

- Single layer roofing system for normal use.
- Double layer roofing system.
- Toilets and wet areas inside buildings.
- Slab on grade.
- As part of two or three layer system in underground structures and basements.
- BITUFELT with mineral slated finish is recommended for exposed roofing system (unprotected) for non-accessible roofs or roofs subject to low traffic conditions.

ADVANTAGES

- Easy to apply (by torch).
- High mechanical properties.
- Absolute impermeability to water.
- Excellent high temperature performance.
- Excellent adhesion on any surface.
- High dimensional stability.
- Environmentally friendly.
