## NIROL - W

( Cold - applied bitumen emulsion for waterproofing )

NIROL-W is a stable, water-soluble emulsion of bitumen, resins, mineral stabilizers

BITUMODE NIROL

## USES

**As a damp proof membrane for:**

- Concrete and masonry.
- Foundation footings.
- Ground beams.
- Retaining walls and basements.
- Priming coat for general uses.
- Protective coating for concrete

## ADVANTAGES

It is cold applied on horizontal or vertical surface. Has an Excellent and strong adhesion on structural materials such as :

(Concrete, metal, wood, bricks,etc)

When it dries :

It gives a strong shining black membrane.

It is not affected by weathering conditions.

Resists attack of chlorides and sulphates (likely to be present in ground water).

Solvent free.

Easy to apply without any heating thus economic in cost and labor.

## STORAGE

Keep out of direct sunlight in covered store.
