

# NIROL - W

## (Material Safety Data Sheet For Asphalt Emulsions)

### 1. Identification of the Product and Company

1.1 Product –cold applied bitumen emulsion for waterproofing.

1.2 Application – as priming coat for general uses, protective coating for concrete and as a damp proof membrane.

1.3 Company Identification

Modern Waterproofing Company

2,EL-Sobki st., Dahabi Sq., Roxy, Cairo , Egypt

1.4 Telephone Number + 202 24141003

Fax. + 202 22912315

e-mail : info @modernwaterproofing.com

website : [www.bitumode.com](http://www.bitumode.com)

### 2. Composition / Information on Ingredients

- Petroleum Asphalt, with Polymer Additive Mixture in water base.

-Emulsified asphalt prepared with mineral colloid emulsifying agents, without fibrous reinforcement.

| Cas No.   | Chemical name            | %   |
|-----------|--------------------------|-----|
| 8052-42-4 | <b>Bitumen</b>           | ≤30 |
| 1318-93-0 | <b>Emulsifiers agent</b> | ≥10 |
| 7732-18-5 | <b>Water</b>             | ≤60 |

### 3. Hazards

**EYES:** Eye contact may result in eye irritation or burns.

**SKIN:** Skin contact with hot product can cause thermal burns.

**INGESTION:** This material can irritate the mouth, throat, stomach, and cause nausea, vomiting, diarrhea.

**INHALATION:** No significant health effects are expected to occur from short-term exposures to this product at ambient temperatures.
